

Miss kinsey's report imdb.

Seinfeld is one of the funniest sitcoms ever created. However, not every episode is as hilarious as the last, and true fans agree that the "golden age" of Seinfeld happened between seasons 3 and 5. The most beloved episodes come from those years. Each Seinfeld cast member from the series has a different favorite. But when it comes to ranking the 180 episodes, IMDb reports a clear winner in the rankings. These are the top 10 Seinfeld episodes from all 9 seasons. 'The Yada Yada' It's no surprise that at least one episode references the classic Seinfeld catchphrase, "yada, yada, yada." The tenth most popular episode comes from the later seasons and includes George's new girlfriend using "yada yada" in her stories. This is also when Jerry gets offended by his dentist Tom Whatley's (Bryan Cranston) anti-Semitic jokes. 9. 'The Abstinence' So many Seinfeld bits revolve around sex. In "The Abstinence" from season 8, Elaine gets dumber while abstaining from having relations while George gets smarter. Meanwhile, Kramer takes up smoking and experiences horrific physical consequences. Jerry is cut from the career day roster at his old school. 8. 'The Chicken Roaster' 'The Chicken

Roaster": Michael Richards as Cosmo Kramer, Wayne Knight as Newman | Byron Cohen/NBCU Photo Bank/NBCUniversal via Getty Images RELATED: 'Seinfeld' Almost Never Accepted Thanks to 'Not Funny' Pilot Episode Everyone Hated This episode includes a Kenny Rogers' Roasters restaurant setting up across from Kramer's apartment, which leads to him and Jerry switching apartments. It's considered one of the more surreal episodes that started occurring in season 8 after co-creator Larry David's departure from the series. But with a 9.1 IMDb rating, it's still one of the more popular options. 7. 'The Bizarro Jerry' Speaking of surreal, "The Bizarro Jerry" from season 8 shows George using his fiancée Susan's death as a way to pick up women. Elaine befriends someone who's the polar opposite of Jerry. And Jerry once again focuses on superficial attributes when he obsesses over his date's "man hands." 6. 'The Marine Biologist' When George's date mistakes him for a marine biologist, things go hilariously awry when they encounter a whale in distress. This leads to Jerry Seinfeld's favorite scene in the series. "We got very lucky," Seinfeld said of writing the scene. "Larry [David] and I came up with it the night before we were shooting. We wrote it late at night, and Jason memorized the whole speech in one day." The funny part happens when George successfully clears the whale's blocked blowhole which was obstructed by Kramer's golf ball. 5. 'The Merv Griffin Show' In the sixth episode of season 9, Jerry becomes obsessed with his date's vintage toy collection and comes up with methods to get her to go to sleep so he can play with them, which has a distinctly creepy vibe. And Kramer rescues set pieces from The Merv Griffin show out of the trash and sets them up in his apartment. 4. 'The Outing' In "The Outing," George and Jerry try to convince a journalist that they aren't secretly lovers. ("Not that there's anything wrong with that!"). But the more they protest, the more it looks like they're just covering up a relationship. 3. 'The Soup Nazi' He has the best soup and the worst attitude in town. The real person who "The Soup Nazi" is based upon sued the creators of Seinfeld for how he was portrayed on the show, claiming it ruined his business. Even now, Seinfeld fans are likely to shout, "No soup for you!" That's what makes it the third most popular episode of the series. 2. 'The Contest' An entire episode about Jerry, Elaine, George, and Kramer abstaining from masturbation never actually uses that word as a descriptor. Instead, the group learn to become "master of my domain" and hilariously place bets on who can last the longest without self-pleasure. It's David's favorite episode of the series and one he would have quit over if it didn't get past the censors. 1. 'The Opposite' The most popular episode of Seinfeld, according to IMDb, comes from season 5. In "The Opposite," George experiments with doing the opposite of what he'd normally do and experiences hilarious results. Jerry has bad and good things happen in equal measure while everything starts going wrong for Elaine, who claims she became George. The episode has an impressive 9.6 rating and the honor of being the top-rated installment of a cult classic comedy. Interesting XXX porn coulda been a contenderThis half-hearted attempt to make an interesting porn film starts as an overachiever, but ends up as an underachieving programmer. Susan McBain's strong central performance is its drawing card for fans.Something Weird revived it on Vol. 43 of its Dragon Art Theatre series, and the stupid writer of the accompanying back liner notes adds to the confusion of the film's already messed-up on-screen credits. He rattles on & on "knowingly" about the fabulousness of leading lady Brenda Basse, when in fact popular '70s star Susan McBain toplines as Janice Kent, the euphemized "Miss Kinsey" of the title, not Basse. Brenda Basse is a Black actress who plays a lesbian who seduces McBain; she is clearly identified in the trailer for Chuck Vincent's comedy BANG BANG.Opening credits cause much confusion by stating: "Introducing Brenda Basse and Eric Edwards". Now in mainstream films an "introducing" card is often accorded an actor who has previously had only minor roles, but Eric Edwards had made dozens of films predating this one, even if the 1977 date is incorrect. He certainly looks older here than in his familiar early roles in such films as Roberta Findlay's Angel Number 9 or Chuck Vincent's Mrs. Barrington, as well as famous assignments for Joe Sarno. Why Basse merited this special credit is odd, unless it was a slow con to set a trap (Something Weird hack take note) for would-be fake "film historians" of our decadent age, who extrapolate and jump to false conclusions in an effort at self-promotion, since one would assume from the skimpy credits that she, not McBain, had the lead role.Plot is set in motion when Miss Kent receives a phone call from her late uncle's attorney, informing her that if she carries on the old guy's sex survey, and comes up with results validating his research, she will come into a \$2 million inheritance. Voice on the phone is very familiar, being that of ubiquitous porn star Eric Edwards.That's enough plot for nearly an entire porn film, though a final reel twist pulls a switcheroo. Until then McBain as Janice Kent interviews various folks and in the manner of Playboy Magazine's popular cartoon character Little Annie Fanny, has sex with them in wide-eyed fashion without even a modicum of coaxing necessary.Two of the interviewees are black, making for effective mixed combo scenes with John Lawrence and the aforementioned Brenda Bassie, latter strapping on a dildo for good measure. Herschel Savage, who is probably already a member of the "1,000 movie roles" club (especially if you include his short loop appearances), already shows potential early in his career as a nonchalant guy, who identifies his line of work as "porn actor and collecting unemployment" (!), that McBain picks up lolling around on the stairs of a brownstone, in a rare exterior shot that brands this film as "Made in NYC". McBain's beauty, her ease with dialog (she recites her pre-set list of interview questions with nary a flub) and overall classness make the movie watchable. Though lensed by the talented C. Davis Smith, it is a cheapie, with a crummy musical track that emphasizes banjo music for no reason. I will not discuss the stupid final reel since to do so is an instant spoiler, but as usual this truncated print ends abruptly before the inevitable Eric Edwards' money shot can be shown.Suggest an edit or add missing contentYou have no recently viewed pages Thursday August 5, 2021 12:50 am PDT by Tim HardwickIMDb has released standalone iPhone and iPad apps for its free, ad-supported TV streaming service, meaning users looking to access its video offerings no longer need go searching for it in the standard IMDb app. IMDb TV offers viewers free access to a range of popular shows and movies, such as "Mad Men," "Malcolm in the Middle," "Wolf of Wall Street," and "How to Train Your Dragon."
